Wireless USB Proximity Key & Lock for PCs and Macs

Categories: Automation, Security, Compliance

KEY FEATURES

- Automatically lock your computer when you walk away

- Automatically logs you in to your computer and websites when you approach your PC

- Auto-fills passwords on all your favorite websites

- Continuous authentication is more active and stronger than traditional 2FA methods

- Turn your phone into your keyless authenticator with the Trident app

- Military-grade AES-256 encryption

REQUIREMENTS

- Windows 7, 8.1, 10

- MacOS 10.13, 10.14

DESCRIPTION

GateKeeper Halberd is your authenticator for touchless, faster and more secure access to your passwords on PCs and websites. The Halberd is your wireless password caddie that takes care of auto-loading all of your passwords when your present. When you leave, the Halberd (or Android phone) auto-locks your computer—protecting from unintended access.
