

# Accurately Audit Who Logged in on Shared Computers

## Audit Unique Users on Shared Windows Accounts Instantly.

Shared Windows accounts on kiosk computers are no problem when using GateKeeper to login. Admins can automatically meet compliance requirements for accurately logging individual access events, even on shared computers. Clean audit trails and ready-to-go electronic reports.

### Shared Computers

100% Accurate Logs

Accurately auto-log **individual users** across your shared computers.

### Shared Passwords

Share Access Safely

Let users **securely share passwords** to reduce password administration needs.
