support@gkaccess.com

Automated authentication for faster logins

 Computer and Thin Client

- ➔ 1) Have your **token (key)** with you.
- 2) Type your token's **PIN**.

 RDP

- ➔ Re-type your token's **PIN** to login to RDP session with your GateKeeper key.

 Websites and OTPs

- ➔ Passwords, usernames and OTPs **autofill**. If passwords don't autofill, **select** from the icon.

 Desktop Applications

- ➔ Press **CTRL+SHIFT+G** hotkey to fill in your desktop application's username and password.

 Lock Computer

- ➔ 1) **Walk away** with your token.
- 2) Computer will auto-lock.
